Education

CMR Institute of Technology

Sep 2024 – June 2028

Bachelor of Engineering in Computer Science (*CGPA: 8.68*)

Bangalore, Karnataka

Technical Skills

Languages: Python, C++, Java, C, HTML, CSS, MySQL

Technologies: Git, GitHub, Maven, VS Code

Relevant Coursework: Data Structures, Algorithms, Object Oriented Programming, Operating Systems

Achievements

- Solved 100+ problems on LeetCode

LeetCode

Projects

QR-Based Restaurant Ordering System

Mini Project

- Developed a web-based restaurant ordering system that allows customers to browse the menu, place orders, and make payments through a QR-based interface.
- Implemented separate login systems for **Admin** and **Customer** to manage menu items and process orders efficiently.
- Designed the order workflow including menu browsing, item selection, table selection, order summary, and payment processing.
- Integrated QR code generation containing order details such as table number, selected items, and total amount.
- Built an admin management panel to view customer orders and update order status (e.g., mark orders as served).
- Added customer feedback and rating functionality to improve service quality.
